2016-04-07 Updated Octave

Based on: <http://askubuntu.com/questions/645600/how-to-install-octave-4-0-0-in-ubuntu-14-04>

```
sudo apt-add-repository ppa:octave/stable
sudo apt-get update
sudo apt-get install octave
```

This obliterated the existing PTB directories, so reinstalled according to:

<http://psychtoolbox.org/linux/>

```
sudo apt-get install octave-psychtoolbox-3
```
