

Visual Neuroscience Lab Publications

2023

Identification of dot clusters in a Gaussian-distributed field: The range of human perception and a comparison with spectral graph clustering

Cate, A. D. (2023) "Identification of dot clusters in a Gaussian-distributed field: The range of human perception and a comparison with spectral graph clustering." Society for Neuroscience Annual Meeting, Washington, D.C.

2021

The figural shape of 3D concave regions activates temporopolar cortex

Cate, A. D. (2021). "The figural shape of 3D concave regions activates temporopolar cortex." Vision Sciences Society Annual Meeting, St. Pete Beach, FL.

2019

YOU CAN'T PLAY 20 QUESTIONS WITH AN ALGORITHM
AND WIN

Anthony D. Cate, Ph.D.

April 12, 2019

Link to reveal.js slideshow:

[You Can't Play 20 Questions with an Algorithm and Win](#)

PDF version:

[You can't play 20 questions with an algorithm and win: how to break deep networks productively.](#)

Cate, A. D. (2019). "You can't play 20 questions with an algorithm and win: how to break deep networks productively." Algorithms That Make You Think Workshop, Blacksburg, VA.

MODELING VISUAL ENUMERATION USING
CUMULATIVE LINK REGRESSION

Anthony D. Cate, Ph.D.

Virginia Tech

[Modeling Visual Enumeration Using Cumulative Link Regression](#)

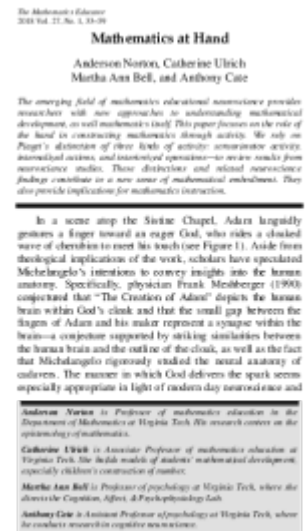

PDF version:

[Modeling Visual Enumeration Using Cumulative Link Regression.](#)

Cate, A. D. (2019). "Modeling Visual Enumeration Using Cumulative Link Regression." Computational and Mathematical Models in Vision (MODVIS), St. Pete Beach, FL.

2018

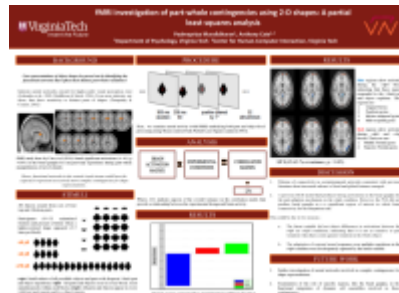

Mathematics at Hand

Norton, A., Ulrich, C. L., Bell, M. A. & Cate, A. (2018). "Mathematics at Hand." *The Mathematics Educator* 27(1): 33-59.

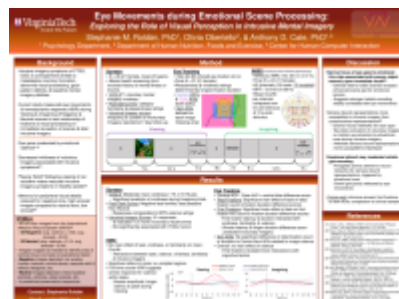

2017

fMRI investigation of part-whole contingencies using 2-D shapes: A partial least squares analysis

Muralidharan, P. & Cate, A. D. (2017). "fMRI investigation of part-whole contingencies using 2-D shapes: A partial least squares analysis." Cognitive Neuroscience Society Annual Meeting, San Francisco, CA.

Eye Movements during Emotional Scene Processing: Exploring the Role of Visual Perception in Intrusive Mental Imagery

Roldán, S. M., Obertello, O. & Cate, A. D. (2017, May). "Eye Movements during Emotional Scene Processing: Exploring the Role of Visual Perception in Intrusive Mental Imagery." Vision Sciences Society Annual Meeting, St. Pete Beach, FL.

2016

Empty space is less crowded: stereo-defined 3D letters exhibit less crowding when they are concave than when they are convex

Perceptual Organization in Parkinson's disease: The Role of the Basal ganglia in Shape-Based Object Recognition and Emotion Perception

Muralidharan, P. & Cate, A. D. (2016). "Perceptual Organization in Parkinson's disease: The Role of the Basal ganglia in Shape-Based Object Recognition and Emotion Perception." Vision Sciences Society Annual Meeting, St. Pete Beach, FL.

2015

Functional and anatomical properties of human visual cortical fields.

Zhang, S., Cate, A. D., Herron, T. J., Kang, X., Yund, E. W., Bao, S., & Woods, D. L. (2015). Functional and anatomical properties of human visual cortical fields. *Vision Research*, 109, Part A, 107-121. <http://doi.org/10.1016/j.visres.2015.01.015>

Concurrent fMRI analysis of part-whole structure and subjective object norms for items from the BOSS (Bank of Standardized Stimuli) data set.

Cate, A., & Roldán, S. M. (2015). Concurrent fMRI analysis of part-whole structure and subjective object norms for items from the BOSS (Bank of Standardized Stimuli) data set. Presented at the Vision Sciences Society Annual Meeting, St. Pete Beach, FL.

2014

Human cortical visual pathways for the perception of figural shapes that violate Gestalt principles: fMRI of 3D concave shape from stereopsis.

Cate, A. D., Brown, J. M., & Roldán, S. M. (2014). Human cortical visual pathways for the perception of figural shapes that violate Gestalt principles: fMRI of 3D concave shape from stereopsis. Presented at the Society for Neuroscience Annual Meeting, Washington, DC, USA.

Neural correlates of holistic and configural visual object processing.

Roldán, S. M., & Cate, A. D. (2014). Neural correlates of holistic and configural visual object processing. Presented at the Society for Neuroscience Annual Meeting, Washington, DC, USA.

Effects of physical size on visual contour integration and global-local judgments of hierarchical forms.

Brown, J. M., & Cate, A. D. (2014). Effects of physical size on visual contour integration and global-local judgments of hierarchical forms. Presented at the Society for Neuroscience Annual Meeting, Washington, DC, USA.

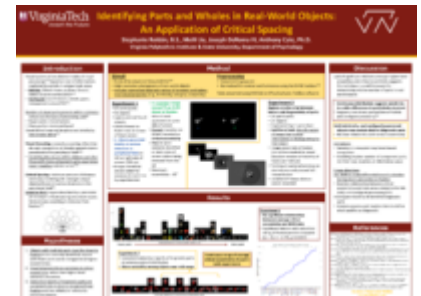

Mathematical Ways of Operating: an fMRI Study with 12-year-old participants.

Cate, A. D., Rosen, A., Bell, M. A., Ulrich, C., Roldán, S. M., & Norton, A. (2014). Mathematical Ways of Operating: an fMRI Study with 12-year-old participants. Presented at the Organization for Human Brain Mapping Annual Meeting, Hamburg, Germany.

2013

Identifying Parts and Wholes in Real-World Objects: An Application of Critical Spacing

Roldán, S. M., Liu, M., De Roma, J., & Cate, A. D. (2013). Identifying Parts and Wholes in Real-World Objects: An Application of Critical Spacing. Presented at the Object Perception, Attention and Memory, Toronto, ON, Canada.

Spatial grouping and visual enumeration performance: signal detection analysis.

Cate, A. D., & Tzur, L. (2013). Spatial grouping and visual enumeration performance: signal detection analysis. Presented at the Psychonomics Society Annual Meeting, Toronto, ON., Canada.

[Spatial and semantic memory for kinesthetic learning in large-scale visual displays.](#)

Smith, D., Chung, H., Ragan, E., Self, J., North, C., & Cate, A. D. (2013). Spatial and semantic memory for kinesthetic learning in large-scale visual displays. Presented at the Society for Neuroscience, San Diego, CA.

2012

Combined Hemispheres

 Cate, Herron et al. 2012

[Intermodal attention modulates visual processing in dorsal and ventral streams.](#)

Cate, A. D., Herron, T. J., Kang, X., Yund, E. W., & Woods, D. L. (2012). Intermodal attention modulates visual processing in dorsal and ventral streams. *NeuroImage*, 63(3), 1295–1304.

<http://doi.org/10.1016/j.neuroimage.2012.08.026>

O'Neil, Protzner et al. 2012

Distinct patterns of functional and effective connectivity between perirhinal cortex and other cortical regions in recognition memory and perceptual discrimination.

O'Neil, E. B., Protzner, A. B., McCormick, C., McLean, D. A., Poppenk, J., Cate, A. D., & Köhler, S. (2012). Distinct patterns of functional and effective connectivity between perirhinal cortex and other cortical regions in recognition memory and perceptual discrimination. *Cerebral Cortex* (New York, N.Y.: 1991), 22(1), 74–85. <http://doi.org/10.1093/cercor/bhr075>

Kang, Herron et al. 2012

Hemispherically-Unified Surface Maps of Human Cerebral Cortex: Reliability and Hemispheric Asymmetries.

Kang, X., Herron, T. J., Cate, A. D., Yund, E. W., & Woods, D. L. (2012). Hemispherically-Unified Surface Maps of Human Cerebral Cortex: Reliability and Hemispheric Asymmetries. *PLoS ONE*, 7(9), e45582. <http://doi.org/10.1371/journal.pone.0045582>

[Cortical surface-based meta-analysis of human visuotopic regions from published stereotaxic coordinates.](#)

Cate, A., Herron, T., Kang, X., & Woods, D. (2012). Cortical surface-based meta-analysis of human visuotopic regions from published stereotaxic coordinates. Presented at the Vision Sciences Society Annual Meeting, Naples, FL. In *Journal of Vision* (Vol. 12, pp. 523–523). Naples, FL. <http://doi.org/10.1167/12.9.523>

2011

Part-whole integration of 2D shapes in the hippocampus and the basal ganglia.

Cate, A., Kang, X., Herron, T., & Woods, D. (2011). Part-whole integration of 2D shapes in the hippocampus and the basal ganglia. Presented at the Vision Sciences Society Annual Meeting, Naples, FL. In *Journal of Vision* (Vol. 11, pp. 1094–1094). Naples, FL. <http://doi.org/10.1167/11.11.1094>

VAMCA: A toolbox for the visualization and metaanalysis of functional organization of the cortex using an anatomical database.

Herron, T. J., Cate, A. D., Kang, X., & Woods, D. L. (2011). VAMCA: A toolbox for the visualization and metaanalysis of functional organization of the cortex using an anatomical database. Presented at the 4th INCF Congress of Neuroinformatics, Boston, MA. In *Frontiers in Neuroinformatics*. Boston, MA. <http://doi.org/10.3389/conf.fninf.2011.08.00107>

2010

Cate & Behrmann 2010

Perceiving parts and shapes from concave surfaces.

Cate, A. D., & Behrmann, M. (2010). Perceiving parts and shapes from concave surfaces. *Attention, Perception & Psychophysics*, 72(1), 153–167. <http://doi.org/10.3758/72.1.153>

Woods, Herron et al. 2010

Functional properties of human auditory cortical fields.

Woods, D. L., Herron, T. J., Cate, A. D., Yund, E. W., Stecker, G. C., Rinne, T., & Kang, X. (2010). Functional

properties of human auditory cortical fields. *Frontiers in Systems Neuroscience*, 4, 155.
<http://doi.org/10.3389/fnsys.2010.00155>

[Divergence modeling: Analyzing perceptual representations via stimulus similarity and information theory.](#)

Cate, A. D., Herron, T. J., & Woods, D. L. (2010). Divergence modeling: Analyzing perceptual representations via stimulus similarity and information theory. Presented at the Society for Neuroscience, San Diego, CA.

[Shape dimensions, perceptual organization and intermodal selective attention: anterior extrastriate fMRI.](#)

Cate, A., Kang, X., Herron, T., Yund, E. W., & Woods, D. (2010). Shape dimensions, perceptual organization and intermodal selective attention: anterior extrastriate fMRI. Presented at the Vision Sciences Society Annual Meeting, Naples, FL. In *Journal of Vision* (Vol. 10, pp. 1205–1205). Naples, FL.
<http://doi.org/10.1167/10.7.1205>

2009

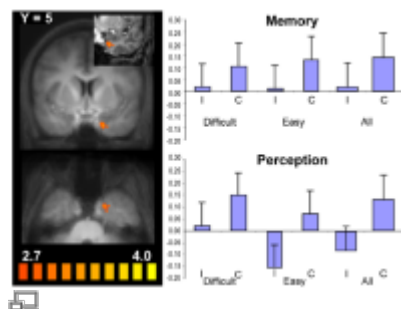

Cate, Herron et al. 2009

Auditory Attention Activates Peripheral Visual Cortex.

Cate, A. D., Herron, T. J., Yund, E. W., Stecker, G. C., Rinne, T., Kang, X., ... Woods, D. L. (2009). Auditory Attention Activates Peripheral Visual Cortex. *PLoS ONE*, 4(2), e4645.

<http://doi.org/10.1371%2Fjournal.pone.0004645>

O'Neil, Cate & Köhler 2009

Perirhinal Cortex Contributes to Accuracy in Recognition Memory and Perceptual Discriminations.

O'Neil, E. B., Cate, A. D., & Kohler, S. (2009). Perirhinal Cortex Contributes to Accuracy in Recognition Memory and Perceptual Discriminations. *J. Neurosci.*, 29(26), 8329-8334.

<http://doi.org/10.1523/JNEUROSCI.0374-09.2009>

Cate, A. D., & Köhler, S. (2006). The missing whole in perceptual models of perirhinal cortex. *Trends in Cognitive Sciences*, 10(9), 396–397. <http://doi.org/10.1016/j.tics.2006.07.004>

Cate & Behrmann 2002

[Spatial and temporal influences on extinction.](#)

Cate, A., & Behrmann, M. (2002). Spatial and temporal influences on extinction. *Neuropsychologia*, 40(13), 2206–2225.
