# Lab Procedures

---

## Neuroimaging

[MRI](#)

[NIRS](#)

---

## Working with Study Participants

[VT Human Subjects Protections training](#)

---

## Psychophysics

## **Stereoscopic Displays**

[Stereograms using Psychtoolbox](#)

[The lab's stereo display hardware](#)

---

## **Projection Displays**

[DLP projector details](#)

---

## **Publishing**

[Publishing resources](#)

---

# **Guides and Tutorials**

---

## **Neuroscience Topics**

[Learning cerebral cortex anatomy](#)

[Importance of color in face perception](#)

[Holism, Familiarity and Capgras](#)

[Crowd sourcing experimental data](#)

---

## Statistics

[linear mixed effects regression](#)

---

## Programming & Software

### Science & Math

[MATLAB](#)

[GNU Octave](#)

[R](#)

### Moving, editing and backing up files

[awk](#)

[bash](#)

[emacs](#)

[git](#)

[ImageMagick](#)

[Editing PDF Documents](#)

### System administration

[VirtualBox](#)

## Tutorials

[Software tutorials on lynda.com](#)

---

## Open data sets

### Image data sets

[Face data sets](#)
